Planete Montessori International School

HELLO!

Welcome

W O R D

Growing
together

Welcome Back: A New School Year Begins ! As we reflect on the start of this school year, we are filled with joy and excitement. It has been a few months now since we welcomed our returning students, as well as the new families who have joined our community.

The energy, enthusiasm, and warmth that each of you brings to our school have truly made this year special already. At PMIS, we are more than just a school – we are a family. We pride ourselves on creating a welcoming and inclusive atmosphere where every child feels valued, supported, and inspired. Welcome to the first newsletter of the school year! As we kick off this exciting new chapter, we're thrilled to share some insights into our ongoing journey and recent events. This newsletter aims to keep you informed about the key moments, accomplishments, and upcoming activities that are shaping our school community. From memorable experiences to important updates, we hope this newsletter brings you closer to the heart of our school's vibrant life. Thank you for being part of our journey, and we look forward to an inspiring year ahead !

Our School Vision and Mission

Vision

Planete Montessori International School believes in the potential of the child. We believe that every child who walks through our door comes out as a global citizen, confident, independent and socially responsible.

Mission

Planete Montessori International School is a multicultural community, with children from different backgrounds. We offer an international education with solid knowledge in liberal arts, science and technology. We offer trilingual education (English - French - Arabic) with a dominant in English from the environment 3-6 years.

Our mission is to foster excellence, through the development of critical thinking and creativity. We aim to build resilience and character, promote responsible and comprehensive citizenship, encourage lifelong learning and train people to become sensitive to an International reality. We commit to offering a stimulating and high quality international education, which we consider important for our learners.

WELCOME

TO OUR

NEWEST

MEMBERS

We are thrilled to introduce the newest members of our school family who have joined us this year! Each one brings a unique set of skills, experiences, and a passion for education that will contribute to our school's continued growth and success.

MONTESSORI MODEL UNITED NATIONS 2025

We are pleased to announce that our school is officially enrolled in the Montessori Model United Nations Year Long Program Rome Conference for April 2025 !

We have 9 children participating this year.

It is an exciting opportunity for them as they will be part of an amazing human experience, stepping into the shoes of a UN representative in April !

From April 8th to 13th

As part of their enrollment process, they were required to write essays expressing their motivations for participating & detailing what positive changes they aspire to bring to the world. They underwent interviews to present their motivations & discuss their chosen topics. We couldn't be prouder of their determinations and look forward to sharing the exciting updates and experiences that await our selected delegates on their MMUN journey.

To have a better idea of the program & the conference

[CLICK HERE](#)

The Montessori Model United Nations (MMUN) is an international educational program designed for student 9-15 years old.

It brings together classroom study into a global problem solving journey for upper elementary and middle school students. Each students becomes a delegate of a selected nation. Student delegates write, present and debate issues affecting they nations and peoples of the world.

By assuming the role of delegates, they develop an understanding of the needs of diverse people and the importance of multilateralism. Working through the complexities of world problems, they see the interdependence of nations and the importance of global goals that leave no one behind.

Meet our DELEGATES !

We are confident that you will embody the values of global cooperation, leadership, and critical thinking as you engage with peers from around the world. Best of luck as you prepare for this exciting journey - we are all proud of you !

A Legacy of : 

COMPASSION

Honoring Abdessadek and Supporting His Family

With deep gratitude and pride, we reflect on the incredible outpouring of support from our community following the passing of our beloved friend and colleague, Abdessadek. A man known for his boundless generosity, compassion, and dedication to others, Abdessadek's sudden departure left us all with heavy hearts. Yet, in the face of this loss, our community came together in a way that would have made him proud.

When we realized how deeply touched and moved our parents, staff, and friends were by Abdessadek's passing, we knew we had to take action to support his family during this incredibly difficult time. With overwhelming generosity, our community embraced the idea of helping Abdessadek's wife and two daughters find long-term stability. In just a few weeks, thanks to your incredible support, we successfully raised a total of 273,000 Dhs—an amount that exceeded our expectations and reflects the strength of our collective compassion. This fundraising effort was the beginning of a larger vision: to provide a permanent home for Abdessadek's family. With the funds raised, we were able to purchase a home that will offer them security and peace of mind for years to come.

Throughout this journey, we have been moved by the many ways in which people contributed; Even our students, eager to honor Abdessadek's legacy, organized cake sales and other activities, contributing to the funds and learning valuable lessons about kindness and collective action in the process. The success of this initiative speaks volumes about the heart of our community.

Abdessadek was a person who always gave without expecting anything in return, and it is through our collective effort that we have been able to offer his family the same generosity and care that he showed to others throughout his life. As we reflect on this journey, we are reminded of the impact that one individual can have on a community and how, together, we can make a difference in the lives of others. This is not just a home; it is a testament to the enduring spirit of kindness and compassion that defines us.

We extend our deepest thanks to all who contributed, and we will continue to honor Abdessadek's memory by supporting his family and each other in the years ahead.

With heartfelt appreciation,

*Thank
you!*

NEW: PSHE CLASS

We are excited to announce the launch of our new PSHE (Personal, Social, and Health Education) class at PMIS for our 5 to 15 years old learners. This new addition to our curriculum is designed to equip students with the essential skills and knowledge they need to navigate the challenges of the modern world, both within and beyond the classroom.

What is PSHE ?

PSHE stands for Personal, Social, Health, and Economic education. Some PSHE topics include health and wellbeing, financial education, the importance of physical education, diet and other topics.

The Goals of Our PSHE Class

The primary goal of our new PSHE class is to provide students with the tools they need to make informed decisions, manage their emotions, and build positive relationships with others. There is a growing amount of research that shows that pupils who are more emotionally healthy do better in school. Learning PSHE topics allow the child to reach their full potential concerning wellbeing and being able to tackle personal issues that could affect their ability to learn. PSHE Learning could enable the child to overcome some tough problems such as anxiety.

Looking Ahead

The introduction of PSHE is an exciting step in our ongoing efforts to provide a comprehensive and supportive learning environment for all our students. We are confident that, through this new class, our students will develop the skills, resilience, and emotional intelligence needed to lead fulfilling, healthy, and successful lives.

We look forward to seeing the positive impact of this program on our students and are excited to watch them grow and thrive in the years to come.

**Education that prepares for
life today, and
tomorrow.**

OUR SCHOOL LIFE

Sneak Peek 

UNITY, PRIDE, AND HERITAGE

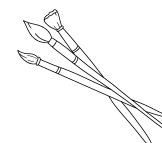

Each year, we come together to celebrate the **Green March**, one of Morocco's most important historical events. On November 6, 1975, Moroccans united peacefully to reclaim Western Sahara, a powerful symbol of national pride and unity. At PMIS, we honor this moment by involving all our learners in a meaningful celebration of Morocco's heritage.

Our students learn about the significance of the Green March through activities and art projects. We also sing the Moroccan national anthem and the Green March song, marching together through the school as a display of unity and pride. This celebration not only strengthens our Moroccan identity but also fosters understanding among our international community.

By sharing this important tradition, we highlight the values of peace, solidarity, and cooperation, uniting students from diverse backgrounds in respect and shared purpose. Each year, we take pride in celebrating Morocco's history and embracing the spirit of our international school community.

EXPLORING TRADITION AND ART

Our school also celebrated Moroccan Man's Craft Day, an exciting opportunity for students to immerse themselves in the rich cultural heritage of Morocco through its beautiful traditional arts and crafts. The event showcased a variety of stunning craftsmanship, including intricate mosaic painting, wood carving, copper-work, wicker weaving, and much more.

Our students not only had the chance to witness these remarkable skills firsthand but also participated in the craft-making process, gaining a deeper understanding of the time, skill, and creativity involved.

By engaging with these crafts, students discovered the beauty and history embedded in Moroccan culture, while also developing a greater appreciation for the meticulous work of artisans. It was a day to celebrate the artistry that defines Morocco, and an opportunity for our students to connect with and appreciate the country's rich cultural heritage.

INVOLVING PARENTS !

Family partnership.

This year, we kicked off our Family Partnership with an engaging session introducing our curriculum by level. Parents had the chance to dive into what their children will be learning and how each stage of our program is designed to nurture growth and discovery. We also explored the school's platform, Manage Bac, a powerful tool for staying connected to their educational journey. These partnerships go beyond presentations—they're about building bridges between parents and teachers. By working together, we create a supportive environment where learners thrive both at school and at home.

Save the date for the Next one : **December 6th** "Let's discover our language approach and materials"

A peek into the Montessori Magic.

In November, we opened our doors for our exclusive Parents Observation sessions, giving families a front-row seat to experience the magic of our Montessori classrooms. Parents from 3 to 6 and 6 to 9 had the chance to witness firsthand how our learners explore, discover, and grow through our unique pedagogy. This special opportunity not only deepened parents' understanding of the Montessori approach but also highlighted the incredible focus, independence, and joy their children bring to their learning every day. The perfect opportunity to strengthen the connection between home and our school !

It's reading time.

This month, we welcomed our 3 to 6 parents into the classroom for a special Reading Time session! Parents had the joy of reading stories to our young learners, bringing tales to life and filling the room with laughter, wonder, and imagination. These moments not only create precious bonds between parents and children but also help foster a lifelong love of reading. Watching our little ones' eyes light up with every page was truly magical!

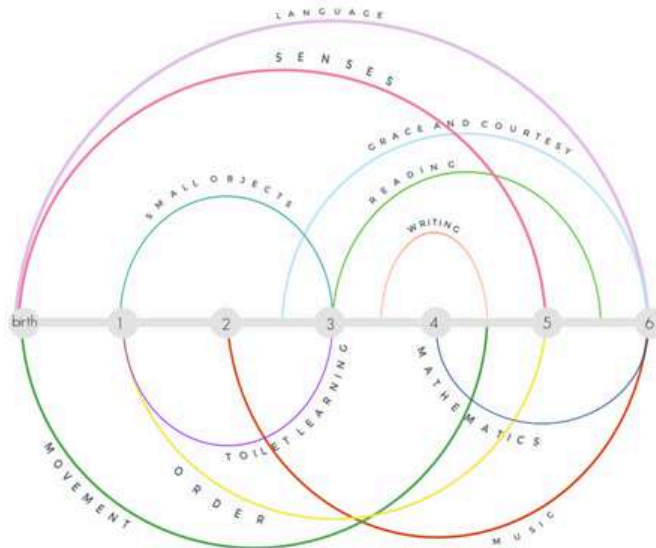

Thank you to all the parents who joined us and shared their favorite stories.

IMPORTANCE OF LANGUAGE DEVELOPMENT

for 3 to 6 years old

SENSITIVE PERIODS BIRTH TO 6

© Nicole Kavanaugh | www.thekavanaughreport.com

Humans come out into the world without language. It is learned and not inborn. That's why the environment we put the child in, prepares the child for language learning. From 0- 6years old, the child absorbs everything with little effort (sensitive period). That's the reason why a child can learn his/her mother tongue very well, even though it's the most difficult language to learn in the world. After age six, the child is able to learn a new language with more conscious effort.

The development of language fall within a sensitive period for order, movement and sensorial exploration. The child becomes aware of the order of existence, order of the environment, names, classifications, etc. Language is not only movement oriented, but also sensorially oriented. All exercises in language require movement—it helps to give the language clarity and meaning, it becomes a part of the child (touching the Sandpaper Letters, moving the Movable Alphabet, placing the Three-Part Card).

Sandpaper letter
(Motor Preparation)

Movable Alphabet
(Integration of Skills)

Initial sound game
(integration of
skills)

Matching cards
(visual development)

Language materials help the child take a thought from the mental image to the verbalization, and further to the written word. It leads the child to independence. It empowers them to verbally express himself/herself in a manner understood by the society. It allows them to express their needs and thoughts freely.

Pattern activity
(visual development)

Children have a genuine love of language and as adults, we must continually foster this natural love for language. It is important for the child to feel that he can communicate effectively. We set a setting wherein the child has to feel confident in expressing his needs, thoughts, and feelings. This will not only extends his language and vocabulary, but also furthers his self-confidence. Our goal is for children to be able to fully express themselves, first on the oral level and later on the written level. Language is a pathway for the child and provides a link to the child's world.

Young Makers in Action

Tracking Progress with Pride

Our learners aged 6 to 15 completed their first MAP TEST session of the school year (Measures of Academic Progress) test. This important tool helps us track individual growth and tailor learning experiences to meet each learner's needs.

We are incredibly proud of our learners for their effort and determination during this session. Together, we continue to focus on growth and excellence, ensuring every learner reaches their full potential!

Stepping into the Shoes of Writers !

Our MYP 2 class recently embarked on an exciting creative journey—writing their very own stories! From crafting imaginative plots to designing characters, our budding authors poured their hearts into creating their small books. The highlight? Presenting excerpts to their classmates, bringing their words to life with passion and flair.

We couldn't be prouder of our young storytellers, who showed incredible creativity and courage in sharing their work. One common thread we noticed—this group has a shared love for scary stories!

Our youngest learners recently embarked on a creative journey through Africa with their art teachers! As part of their exploration, they worked on a beautiful project inspired by the continent's rich culture. Using paper, paint, and stencils, they created vibrant representations of African ladies, celebrating traditional attire and colors.

The results were stunning, and the artworks now proudly hang in their classroom, adding a burst of culture and creativity to the space. This hands-on project not only nurtured their artistic skills but also introduced them to the beauty of Africa in a fun and meaningful way!

Little Artists Explore Africa !

A NIGHT TO REMEMBER

TAILORED EXPERIENCE !

At Planete Montessori International School, tradition meets excitement every year with one of our most anticipated events: Campus Night! This year, our incredible community came together to celebrate learning, friendship, and fun through two unique experiences tailored to our learners' ages: a cozy Movie Night for our 6 to 9-year-olds and an adventurous Campus Night for our 9 to 15-year-olds.

For our younger learners, aged 6 to 9, we organized a delightful Movie Night that brought smiles and laughter to our campus. The evening kicked off with a cozy atmosphere as the children settled in to watch a beloved family movie pop corn in hands. We also sang along, danced, enjoyed a barbecue feast and even played some fun board games ! The joy on the children's faces was priceless, and it was heartwarming to see friendships blossom over shared meals and fun activities.

Meanwhile, our older students, aged 9 to 15, experienced the thrill of a Campus Night like no other. They spent the night on campus, creating lasting memories and strengthening bonds with their peers and teachers. The evening was filled with games, that encouraged collaboration and friendship.

The following day, they participated in various sports activities and team-building exercises, showcasing their skills and teamwork, which was a fantastic way to wrap up the event !

GOALS!

The primary goal of our Campus Night is to foster a sense of community among our students & encouraging friendships. By creating a space where both younger and older students can interact, we aim to build a cohesive school culture that values collaboration, respect, and fun !

Additionally, these events serve as a reminder of the importance of balancing work and play, showing our students that learning can be both educational and enjoyable. A huge thank you to all the staff and 4PROD agency who helped make Campus Night a resounding success !

S C H O O L I S F U N !

WHERE WE ARE IN PLACE AND TIME ...

INQUIRERS

COLLABORATION – TEAMWORK – CREATIVITY

As part of our current unit of inquiry *Where we are in place and time*, our 9 to 12 learners explored a series of studies like the different biomes in the world and the Moroccan geography compared to Britain and other countries by researching, creating 3D models, and presenting their findings to the class. These projects combined research, hands-on creativity, and public speaking.

A MODEL OF A GROUP OF STUDENT'S
COLLABORATIVE PROJECT

Why Are Our Inquiry Projects So Important ?

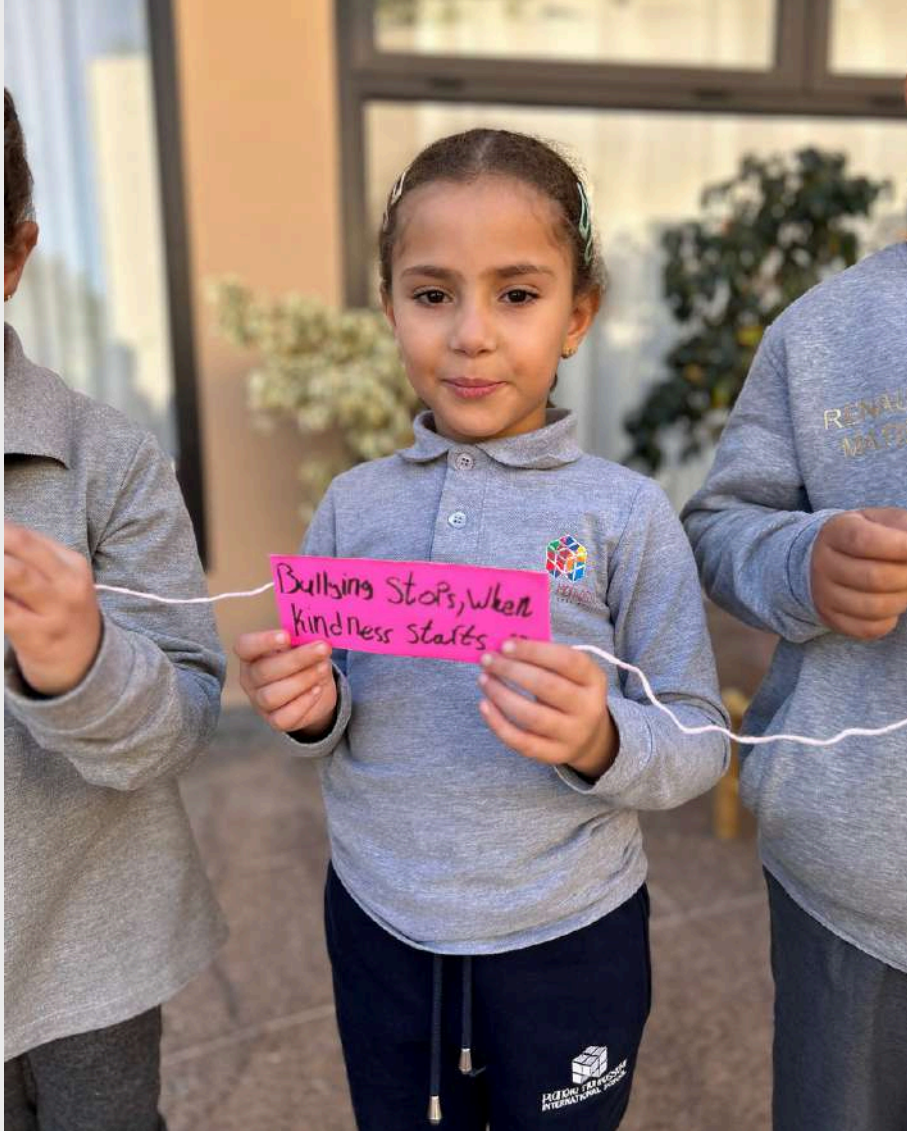

Project based learning helps the students understand Key features of lessons presented and the important roles they play both in our lives and society.

It helps the students develop research skills in gathering and organizing scientific information.

It enhances hands-on learning and creativity, the ability to design and construct models using existing materials.

Through presenting, public speaking skill is enhanced, which prepares the children for the future as well.

STOP BULLYING

Our school proudly hosted Anti-Bullying Week, a dedicated time to nurture important values like respect, kindness, and empathy within our community. Through a variety of engaging activities, we empowered our learners to understand the significance of these values and how they can help create a more inclusive and harmonious environment. From creative art projects to thoughtful discussions, our learners explored the impact of their words and actions.

Through role-play, they practiced standing up for what is right and supporting their peers, fostering a culture of respect and mutual understanding. Arts and crafts allowed them to express their feelings and ideas visually, while group projects emphasized teamwork and compassion.

KINDNESS INTO ACTION

A highlight of the week was Odd Sock Day, a fun and meaningful way to celebrate individuality and promote acceptance. By wearing mismatched socks, our learners were reminded that it's okay to be different—our uniqueness makes us special!

To translate kindness into action, we also encouraged learners to donate 20 Dhs to support a local association. This activity reinforced the importance of lifting others up and showed them how small contributions can make a big difference in someone's life.

The spirit of Anti-Bullying Week left a lasting impression on our school, reminding everyone that kindness is a choice we can make every day. Together, we are building a compassionate community where every learner feels valued, safe, and supported.

LET'S GO

ADVENTURE

THE IMPORTANCE OF SCHOOL OUTINGS

At PMIS, we believe in the power of learning beyond the classroom. School outings are a vital part of our curriculum, offering learners the chance to connect their studies to real-world experiences, spark curiosity, and develop a deeper understanding of their environment.

Recently, our learners explored a pottery workshop, where they discovered the art of shaping clay and created their own pieces—an experience that blended creativity with cultural appreciation. Another group visited the Radeema water treatment station to understand how water is treated and distributed, bringing their lessons on natural resources to life.

These outings are more than just trips— they're opportunities to inspire curiosity, connect classroom knowledge to the real world, and foster lifelong learning. Through hands-on experiences, our learners build confidence, broaden their perspectives, and create lasting memories.

STUDENT'S VOICES !

This year, we're thrilled to announce a brand-new initiative: Class Presidents! Learners aged 6 to 15 participated in democratic elections to choose their class representatives, consisting of a President and a Vice President (their dedicated assistant).

Candidates gave inspiring speeches to share their vision, and their peers cast their votes to elect leaders who will represent them. The role of our Class Presidents is crucial—they act as a bridge between students and the administration, contribute to school life, propose exciting projects, bring creative ideas, and advocate for their classmates.

The newly elected team had their first meeting this month, diving straight into action by contributing to the creation of December's canteen menu. It was a fantastic start, and we can't wait to see what initiatives they'll lead next. Here's to empowering our young leaders and fostering a strong sense of community!

First meeting : Collaborating with the Chef for the canteen's menu

LEARN MORE ABOUT...

How do children pilot their own learning in a 6-9 Class ?

In a 6–9 Montessori classroom, students are empowered to take ownership of their learning journey. At this stage of development, children exhibit a growing sense of independence, curiosity, and responsibility. The prepared environment and individualized approach help nurture these qualities, enabling them to become active participants in their education.

One of the ways children pilot their own learning is through work choices. After an initial lesson or presentation, students are encouraged to revisit activities, explore extensions, or dive deeper into topics of interest. This autonomy allows them to manage their time effectively, set goals, and track their progress, fostering intrinsic motivation.

TEAMWORK

Collaboration and social interaction are also integral to this process. Group work, peer teaching, and discussions allow students to share knowledge, challenge ideas, and refine their understanding. These interactions build confidence and communication skills, essential for lifelong learning.

LEADING THE WAY

The role of the teacher is to observe and guide, stepping in when necessary to offer support or introduce new challenges. By respecting each child's pace and interests, we create an environment where they can take risks, make mistakes, and develop a love for learning.

TEAM SPIRIT IN ACTION!

Building Bonds Building Strength

Our recent team-building event was all about connection! From collaborative challenges to fun-filled activities, our team came together to strengthen trust, communication, and camaraderie.

It was a day of laughter, learning, and renewed energy, reminding us that great teamwork is the foundation of everything we do.

Empowering Learning with Jolly Phonics

Our teachers recently completed a Jolly Phonics training, adding a new layer to their teaching toolkit. This dynamic approach to literacy helps children master reading and writing through fun, interactive methods.

The training ensures our educators are equipped to make learning phonics an engaging and effective experience for every learner.

Together, we're turning sound into success

QUESTIONS TIME...

WHAT I LOVE ABOUT READING ?

Reading opens up a world of imagination, adventure and knowledge, and our students had some wonderful things to say about why they love it ! Here are their thoughts :

HANNA – 8 YO

I like reading because you feel an adventure and it is just very interesting to read more if you find the good book. And when you find it, reading is like your favorite things to do !

FAHED – 10 YO

What I love about reading is the fact that we can learn a lot of things, new words and also when I read it feels like i am living inside the story !

ABLA – 9 YO

I love to read as it make me think that i am in the book ! And reading also improve my vocabulary. I love to read a lot of books but my favorite ones are Harry Potter' s !

INDIDO – 7 YO

I love reading as it is so interesting and funny. My favorite book is Alice in Wonderland !

Their answers remind us just how magical reading can be. What do YOU love about reading?

HEADING TO

London

Off to London: A Journey of Learning and Magic !

We are thrilled to announce that 15 of our learners participated in an exciting trip to London from December 7th to 13th! Organized as part of their English classes, this journey offered a wonderful opportunity to immerse in the language, explore British culture, and enhance their communication skills in real-life settings.

Throughout the trip, students explored iconic landmarks such as the Tower of London, Buckingham Palace, and the Science Museum. They also had the chance to experience the hustle and bustle of Covent Garden, ride the London Eye. They also enjoyed a ferry ride along the Thames, marveling at the city's stunning skyline and landmarks like the Tower Bridge and the Houses of Parliament. These experiences not only brought their English lessons to life but also deepened their understanding of British history and culture.

A standout highlight was our visit to the prestigious University of Cambridge, where students had the opportunity to explore the historic campus, and imagine the possibilities of higher education. This visit sparked curiosity and ambition, showing learners the value of academic excellence and global opportunities.

Trips like these not only broaden students' horizons but also provide them with memories and aspirations that will last a lifetime.

CHANGE OF SCENERY: YOUNGER LEARNERS EXPLORE AGADIR

Continuing our tradition of enriching educational experiences, our younger learners from 6 to 9 years old recently embarked on a delightful trip to Agadir! This adventure offered a refreshing change of decor, blending fun, exploration, and learning in a natural setting. The children had the chance to immerse themselves in the beauty of nature, enjoying Agadir's pristine beaches and the calming sound of the waves. They discovered fascinating animals during their visits to the zoo and experienced the joy of exploring the outdoors.

This trip was more than just an outing—it was an opportunity for our young learners to bond, collaborate, and create memories beyond the classroom. Whether observing wildlife, or simply sharing laughter, the students embraced every moment with enthusiasm and curiosity.

Trips like these play a vital role in nurturing a love for learning, fostering teamwork, and encouraging a sense of wonder about the world around them. We look forward to more such adventures in the future!

Celebrating Growth and Commitment: Teacher Appreciation for Students

Our Middle School Years students were in the spotlight ! Teachers awarded certificates to learners who have shown remarkable improvement and dedication to their classes, recognizing their hard work and perseverance.

These moments of recognition are more than just celebrations—they're motivators. They encourage students to keep striving, remind them of their potential, and inspire their peers to follow suit.

We're incredibly proud of all our learners and their commitment to growth. Keep up the fantastic work!

Early Years Foundation Stage !

TARGA'S CAMPUS !

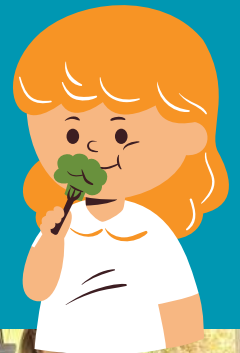

yum!

A sensory Feast !

Our youngest learners, aged 1 to 3 years, recently embarked on a delightful sensory adventure through food! This hands-on experience allowed them to explore a variety of foods in different forms—raw, cooked, and dry. They touched, smelled, and even tasted, engaging all their senses in the process.

The goal of this activity was to help children develop sensory awareness, build curiosity about food, and encourage them to try new textures and flavors. It also fostered fine motor skills as they explored the shapes and feel of each ingredient.

The little ones had a wonderful time, and their giggles and smiles made it a truly rewarding experience. It's amazing to see how such simple activities can spark joy and curiosity in their growing minds!

Fun Time

LEARNING NEW SKILLS !

October marks the beginning of our extra curriculum activities program. The perfect opportunity for our learners to develop new skills while having a lot of fun. This year, our children have a large choices of activities such as Pottery, Koding, Chess, Cooking, Afro dance, Boxe, Spanish, confidence & emotions classes as well as DIY workshops !

Last but not least, our learners have also the possibility to be part of our after school support and choose between French, Arabic and English support classes.

If you would like to enroll for the next trimester, please send an email to officeplanetemontessori@gmail.com

A Heartfelt Message of Love

Recently, a child brought in a beautiful letter to administration, accompanied by small cards filled with words of appreciation for our work. Her thoughtful gesture reminded us of the power of kindness and the impact we have on others. It's these moments that fuel our passion and inspire us to continue making a difference. Thank you for the love and support you bring to our community!

Thank you Hanna
